STATE

. . . the buildings . . . the people . . .
the attitude . . . the learning . . . the
essence of State College . . . giving it
its own personality . . . reflecting a
mode of thinking that sets it apart . . .
making it a way of life obvious to all
but often overlooked in the necessary
scramble for knowledge . . . much is to
be remembered . . . much is left unsaid
but still expressed symbolically . . .

... a campus that is traditionally old
 ... progressively modern ... always
 familiar ... and always changing ...
 first impressions that suggest the com-
 plexity ... the variety ... the versatil-
 ity of student life ...

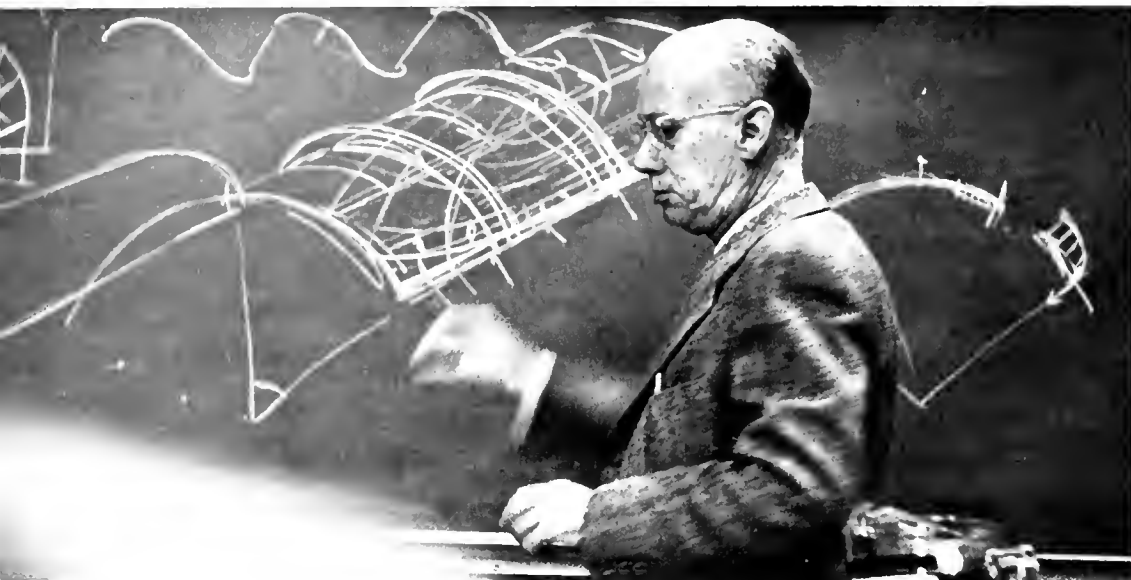

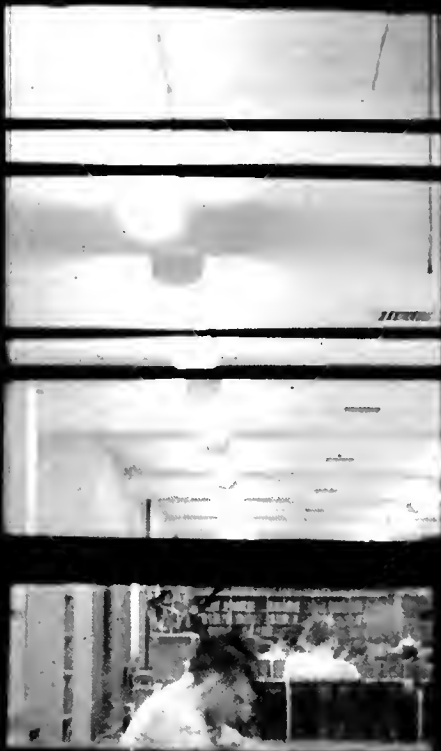

. . . and it rained, changing the mood
. . . but only temporarily for there are
people everywhere . . . going and com-
ing and working . . . lending the atmos-
phere of continuous activity . . .

... those endless lectures that prompted hours of concentration . . . study . . . research . . . the withdrawal into solitude to accomplish a purpose . . . that at times is eluding . . . a break . . . coffee and conversation . . . then the books again . . . long into the night . . .

... that which is long and impatiently
awaited ... the weekend ... the party
... what more is to be said ... a dance
is a dance ... is a dance ... is a
dance ...

. . . crisp fall air and girls in knit suits
. . . football . . . the crowd's wild excitement . . . or tense anticipation . . .
everybody in high spirits and flasks . . .
bright colors and ivy leagues . . . people
and good times worth remembering . . .

School of Agriculture

The science of agriculture is finding increasing application on the farms, in processing plants, in manufacturing plants, and in the whole network of sales and distribution of agricultural products in North Carolina. No longer does agricultural science apply only to farms. Men trained in the biological sciences and agricultural sciences are finding employment in a wide variety of industrial, professional, and farming activities. Graduates of the School of Agriculture are molding many of the changes which are taking place so rapidly and which are building a greater North Carolina. Likewise, they are finding their place in other parts of the nation as leaders in their respective fields. Agriculture can no longer be characterized by the mule and the plow. The agricultural leaders of today are those with mastery of the biological sciences, chemistry, agricultural engineering, agricultural business management, public policy and the techniques of efficient plant and animal production, processing and marketing. The young men and women of North Carolina have the talent and the School of Agriculture provides the training. Throughout the state and nation there is a demand and a willingness to pay for those with both the talent and the training.

Ag Club membership consists of students in the School of Agriculture and the Department of Agricultural Education in the School of Education.

The Ag Club was organized in 1917 to promote leadership in agriculture and campus activities, to provide recreational, educational, and entertainment programs for its members, and to promote school spirit. The club strives to accomplish these objectives through a variety of activities. At the weekly meetings members enjoy informative talks, illustrated lectures, educational movies, and entertaining programs. It also sponsors the Student's Ag Fair, the Barnwarming, Ag Day, and has its own outstanding publication, The N. C. State Agriculturist.

American Society of Agronomy

The aims of the Agronomy Society are to stimulate interest in the field of Agronomy, to aid in carrying on student activities, and to improve relationships between faculty and students.

Each year the club sponsors educational exhibits at the North Carolina State Fair and an Awards Banquet is held during the spring semester at which time the club presents an award to the outstanding instructor in the School of Agriculture.

Alpha Zeta

Alpha Zeta was founded at Columbus, Ohio on November 4, 1897. The North Carolina Chapter was the eighth of forty-five chapters and was chartered in 1904. Its aims are perhaps best expressed in the words of its founders: "Alpha Zeta was established neither as an honorary nor as a social fraternity, but as a professional fraternity whose membership shall be combined of the qualities of high scholarship, fine fellowship, and sound character." These are the vital qualities of real leadership, and it was the actual potential leadership in the field of agriculture for which the fraternity was established to encourage and develop.

The object of the Horticulture Club is to stimulate student interest in the field of Horticulture; to foster and promote recreational and educational activities; and to

encourage student participation in extra-curricular activities.

Agricultural Economics Club

This club is composed of all graduates and undergraduates in Agriculture Economics. It has as its purpose: (1) to stimulate interest in agricultural economics, (2) to provide a means of contact between students

and Farm Economics Association members, and (3) to provide means whereby the members can become familiar with the current developments in the field of agricultural economics.

Animal Industry Club

The aim of the Animal Industry Club is to improve the relationship between students and faculty, to stimulate interest in the field of Animal Industry, and to have the Animal Industry Club members become better acquainted with the livestock breeders of this state. The Club has an annual publication, "Meat and Milk the

Scientific Way"; sponsors the Annual Breeders Barbecue; fits and shows animals at the State Fair; operates the Dairy Bar during Fair Week; enters an exhibit at the Ag Fair; and encourages student participation in judging contests. All students enrolled in Animal Industry are members of the Animal Industry Club.

H. L. Kamphoefner
Dean of the School of Design

School of Design

The School of Design is devoted and dedicated to the development of a native architecture and its accompanying art forms for the southern region.

While the natural and organic aspects of design are stressed, the international and universal aspects of design are also respected and related to the humane patterns of life. We seek to integrate the architect as a social human being and the architect as scientist-engineer, and we encourage and nurture the architect-engineer as the coordinator of the structural dynamics in the over-all pattern of life.

While our first aim is to serve North Carolina and the regions of the South, we believe that our students will be equipped, through the teaching of the school, to work in any region.

Because character, a profound devotion, and an absolute professional commitment are prime ingredients of any creative activity where the social responsibilities are as vital as in architecture and design, we foster and cultivate the integrity of the individual.

J. B. Kirkland
Dean of the School of Education

School of Education

The current need for competent, well-qualified teachers is greater than at any other period in the history of our public school system. This is especially true in the fields of vocational agriculture, industrial arts, industrial education, mathematics and science.

The School of Education provides the professional pre-employment training required for certifying teachers of vocational agriculture, industrial arts, industrial education, mathematics and science. The curriculum in each of these departments includes courses designed to aid prospective teachers in acquiring an understanding of high school pupils, and in selecting and using acceptable teaching methods. The School of Education also provides under-graduate training for recreation leaders in industrial and rural areas.

Kappa Phi Kappa

Kappa Phi Kappa is a national honorary and professional education fraternity, the purpose of which is to promote the cause of education by encouraging men of sound moral character and recognized ability to engage in the study of its principles and problems. For the furtherance of the above purpose the fraternity emphasizes among its members social intercourse, scholarly attainments, and professional ideals.

The Industrial Arts Club brings together the members of the department in order that they may become better acquainted. Outstanding men in related fields present to the club at its meetings the latest ideas and news of the professional world. The club strives to make its profession better known and to influence young men to train for a future in Industrial Arts.

Industrial Arts Club

Epsilon Pi Tau

Epsilon Pi Tau is the international honor society in Industrial Arts and Industrial-Vocational Education. The purposes are (1) to recognize the plan of skill, (2) to promote social and professional proficiency, and (3) to foster and reward research and publish and use its results.

J. H. Lampe
Dean of the School of Engineering

School of Engineering

The engineer, vigorous and probing in his approach to technological problems, represents a profession growing in size and importance. To meet the expanding demand for its graduates, the School of Engineering, too, has grown until it now has the largest enrollment in the College. Fifteen curricula, representing major fields of engineering and growing areas of specialization, are offered by eight degree-granting departments. Graduate as well as undergraduate programs extend to the student the opportunity to exploit to the fullest his capacities for learning.

Dr. John Harold Lampe, Dean of Engineering, directs a staff which includes some of the educational and scientific leaders of the nation. Nine buildings filled with modern facilities are utilized for teaching and research by these faculty members. In its extensive activities in research and service, the School seeks both to explore basic engineering principles and to investigate problems encountered by the industries of North Carolina.

Thus, the School is dedicated to the dual mission of serving the individual student and the citizens of the State. It also sets for itself the task of keeping abreast of current developments in technology and in the engineering profession. The resulting program of education is recognized as one of the foremost in the South and in the nation.

The Engineers' Council is composed of elected representatives of the various engineering societies on the campus. The primary function of this group is to coordinate the activities of the engineering societies represented.

Each year the Engineers' Council sponsors the Engineers' Exposition. It is also responsible for directing the publication of the Southern Engineer.

Another outstanding event sponsored by the Council is the knighting of outstanding engineering students into the Order of St. Patrick. The outstanding senior engineering student is recognized and given a gift by the Council.

Scholarship is encouraged at the Freshman level by selecting the two outstanding Freshmen from each department as Companions of St. Patrick.

This past year, the Council took over sponsorship of the engineering exhibit at the State Fair.

The Joint Student Branch of the American Institute of Electrical Engineers and the Institute of Radio Engineers is the electrical engineering student professional organization at State College. It is affiliated with two

of the major electrical engineering national societies. The Student Branch has the dual function of carrying on student activities and bringing professional programs to the electrical engineering students.

American Society of Civil Engineers

The aims of the society are to help the civil engineering students by closer acquaintances among the students, faculty, practicing engineers, and the National Society. The student chapter supplements regular class and laboratory work, and is the only medium that can relate the professional development of the students to the achievements of the American Society of Civil Engineers.

The society meets every second and fourth Tuesday nights at 7:00 p.m. in the C. E. Building auditorium. The programs consist of movies on engineering projects, lectures by professional engineers, and technical papers prepared and read by students. Social activities are a part of chapter activities. Smokers, picnics, and dances are frequent. Membership is open to all civil engineering students and may be obtained at any official meeting.

Herald

Keramos, the national professional Ceramic Engineering Fraternity, was founded in 1902 at Ohio State University, and is the oldest professional engineering fraternity in the world. While the organization is strictly professional in nature, the requirements for membership are as high as most of the honorary societies and it permits the wearing of the key by honor students. Mem-

bership is offered only to students in the Department of Ceramics or Ceramic Engineering who have a good scholastic record, a good character record and who give promise of making good in industry. The principal object of the fraternity is to promote and emphasize mental achievement and to promote interest in ceramic art, technology, and engineering.

Pi Tau Sigma

Membership in Pi Tau Sigma is the highest honor that can be obtained by a mechanical engineering student in his field. He must maintain a very high scholastic average in order to be eligible for membership, but this is by no means the only requirement, for selection is also based on social adaptability, honesty, personal cleanliness, neatness, and soundness of principles and morals. If a man is deemed worthy, he is invited to join Pi Tau Sigma, an honor which all men would be proud to claim as theirs.

Chi Epsilon

Chi Epsilon is a national professional Civil Engineering honorary fraternity, based on the broad objective of increasing the efficiency of the profession as an instrument of social betterment.

Chi Epsilon was organized to recognize those characteristics of the individual engineer deemed fundamental to the successful pursuit of an engineering career and to aid the development of these characteristics in the undergraduate engineer.

Chi Epsilon has, from a small beginning, grown to a place of prominence in the professional and honorary fraternity world. It has chapters in the majority of the best engineering schools in the country, striving to maintain a constant policy of establishing chapters at a school on the basis of the quality of its instruction and not necessarily its size.

The chapter at State has maintained an active membership of approximately twenty men, and has participated actively in both departmental and school projects.

The State College Forestry Club holds weekly meetings during the school year for the purpose of promoting better relationships between students and members of the faculty. Educational and recreational programs are presented at these meetings.

An annual "Rolleo," held at Hill Forest, is sponsored by the club. At the "Rolleo" teams from each class compete in volleyball, log bucking, horseshoe pitching, to-

bacco spitting, and various other competition. The outstanding social event of the year is the "Logger's Brawl."

Publication of the Pinetum, the Forestry School annual, is sponsored by the club and distributed to forestry students and alumni. The club also publishes Slabs and Edgings, bi-monthly paper containing articles and news of particular interest to forestry students.

ROLLEO

TREE TAGGING

FOX MEMORIAL

M. E. Campbell
Dean of the School of Textiles

School of Textiles

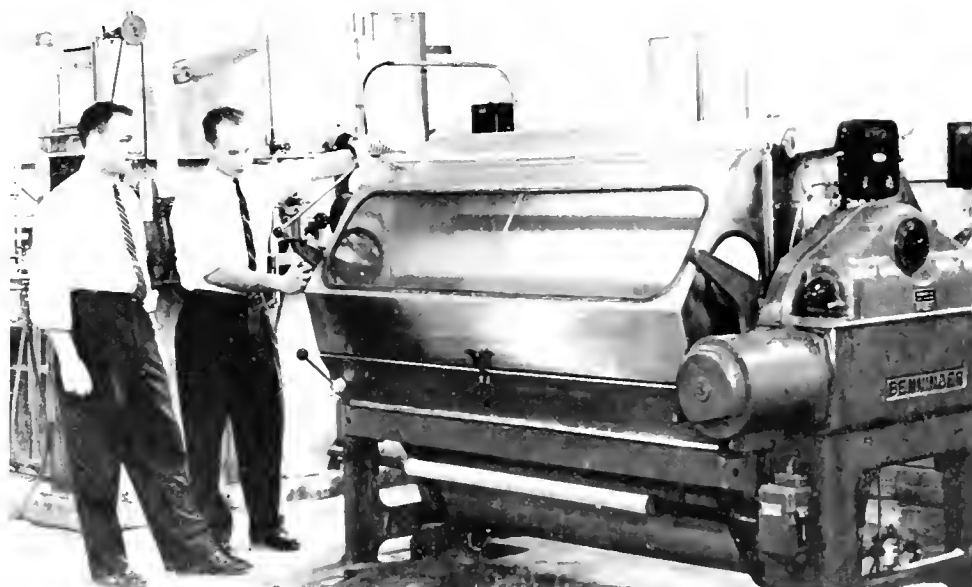

Life is no longer simple in the weaver's trade. Man-made fibers with man-made properties, electronics, chemistry, and even nuclear radiation have converted the ancient art of textile manufacturing to a complex science.

The School of Textiles, through its educational and research program, is providing leadership for this new era in North Carolina's largest industry. It is first in education, first in research.

This is "the mill"—home of whirring spindles and zooming looms—the Orlon artery for human beings—the Shuttle Inn—the blue windows of slubbers and snubbers—of the Red Thunderbird—the beginning of careers in a fast-moving industry.

Under current plans to broaden both programs, and with the backing of textile leaders, the School can help insure the future of one of North Carolina's colorful, fascinating, and dynamic industries.

Tompkins Textile Council

The Tompkins Textile Council is the student's governing body of the Textile School. It is composed of representatives from the various textile organizations and representatives from each class.

The Council acts as the bridge between the students and the faculty. Also, Tompkins Textile Council sponsors many student functions each year, highlighted by the Lintdodger's Ball. To be a member of Tompkins Textile Council is one of the highest honors in the Textile School.

Jesse Chappell, Jr.	Secretary
Victor Garrou	Scribe
Alvin Potts	Sergeant-at-Arms

Delta Kappa Phi is the oldest professional textile fraternity in America, having been founded in 1899 at the Philadelphia Textile Institute. Started by a nucleus of seventeen members, Kappa Chapter was instituted on May 14, 1948 at State College. The fraternity holds an annual convention each year. The chapter here at State College strives to promote activities of interest to the Textile School.

MEMBERS

Lloyd Baird	Victor Garrou	Ray Luckenbach	David Schreffler, Jr.
Paul Braxton	W. J. Griswold	Kenneth McKenny	W. D. Shipman, Jr.
Robert Britt	Robert Hastings	Vencent Novak	Howard Short, Jr.
Larry Buff	John Holmes	Jordon Ploch	Kenneth Stout
L. A. Carpenter	Lacy Howell, Jr.	Jimmy Poteat	Richard Tanner
Jess Chappell, Jr.	Robert Hunter	Alvin Potts	John Thomas
David Church	Joe Hamrick	Everett Pyatt	Martin Traumuller
Billy Coggins	Mack Johnson	Fred Rawicy	David Tuttle
Alton Craven, Jr.	James Laur	Robert Reeves	Carlos Uribe
Jorge Ferencyi	Carol Leatherman	George Sarafidis	Kenneth Williamson
Vance Fowler	Charles Livengood	David Saunders	Al Yujuice

Treasurer

Sigma Tau Sigma

A local textile honor fraternity, Sigma Tau Sigma strives to instill in textile students a desire for higher scholastic attainments. An incentive toward this goal is the Sigma Tau Sigma Scholarship cup that is pre-

sented each year to the senior in textiles with the highest scholastic average. The Greek letters composing the name of the fraternity represent the words, Society of Textile Scholarship.

American Association of Textile Chemists and Colorists

The American Association of Textile Chemists and Colorists seeks to gain experience and interest in the dyeing and finishing of textile goods through monthly

meetings. Speakers are invited from various mills throughout North Carolina and other areas.

Student publications have been a vital force in the life of North Carolina State College for many years. Since its formation in 1931, the Board of Student Publications has served as a joint student-faculty body designed to improve and coordinate the various student publications, now totaling seven and a radio station. The diversity of publications and the varying styles provide an excellent training ground in the field of communications for all students who are interested in this work.

On our way to Charlotte to hand in the tattered remains of the 1957 Agromeck, Rick and I were talking about the work and laughs the yearbook staff had over the last year . . . deadlines that we missed (of which this small article is typical) . . . copy that was lost . . . pics for the Ag Club re-taken three times . . . Chalmers gloating over the cover . . . all night sessions in 1911 building . . . long suffering by Heywood and Gordon identifying organizations . . . disgruntled dates having to type copy . . . a beaten path by Joel to the News and Observer . . . Rudy trying to make out with the sponsors . . . Al getting extra points in at Wing Hq . . . Charlie censoring fraternity snapshots . . . Joe Hall with ready suggestions . . . Alex getting kicked out of every other store in town . . . Stewart thinking seriously about moving into the darkroom. We hope you enjoy your '57 Agromeck as much as we did working on it.

The Technician

Loyd Kirk
Asst. Business Manager

David Barnhardt
Managing Editor

The TECHNICIAN pushed, prodded, goaded and lauded . . . all to speak for students causes, criticize the bunglers, hurry the slow, laud the leaders.

Turning its issue to twice a week for the first time since its inception in 1920, up-to-date coverage and timely news filled its front page as it covered the Moreland Case, the diploma battle, the efforts toward a better student seating arrangement at athletic events and topics of interest to the student.

It struggled along, under-manned, over-worked and unguided . . . but it was unhampered . . . and it was one of the few college papers in America today which could boast of no over-the-shoulder faculty prodding and advice. It was a student organ . . . and often an effective one . . .

Terry Lathrop . . . driving the staff as he did many of the people of the campus . . . sarcastic, crude . . . suave and sweet . . . John Lane . . . keeping the paper in the black when it changed its format and its publication at midyear . . . squelching expensive ideas, but always finding the cash when it was needed . . . Roy Lathrop, David Barnhardt, Bill Evans, Waring Boys, and George Thompson covering the scene, slaving over layout . . . arguing through IDGAD . . . picking at everybody . . . Loyd Kirk . . . helping Lane . . . his second in command . . . and John Parker and Fred Joseph . . . selling the hated but ever needed ads . . . Bill Cochran, Bob Hubbard, Dan Johnson and Darrell Fleming . . . keeping the paper moving, for that is what it is for. Pictures by Cooley, Bellis Hall and Barbot . . . what is a paper without a visual record of what the news says?

A tough year, but good real progress made and a better paper than at the start.

Roy Griffin
Technical Director

Providing thirty hours a week of the best in radio listening for the State College community requires the planning of thousands of words and the selection of hundreds of records. But to the staff of WVWP, 6 p.m. deadlines five nights a week have become routine, so that

State listeners are always assured of finding programs of music designed as a background for the night's lessons, as well as the best coverage of national, local and campus news and sports at the 580 spot on their radio dials.

The Control Room is the hub of activities at WVWP. It is here that programs in each of the three studios are directed and is the origin of the many programs of recorded music. The Control Room also receives all remote broadcasts from the College Union, the Coliseum, and Pullen Hall, or from wherever good entertainment is to be found before they are broadcast.

Charles Turner

Robert Blackwelder

Paul Stephens
Bill Kincheloe

Leonard Lavitt, Kent Watson, H. B. Smith, George Jackson, James Barbot

Dan Sullivan, Bill Porth, Tom Brightwell, Dick Downs, John Miller

From all over the world news comes to the WVWP newsroom by United Press wire to provide up-to-the-minute coverage of world and local happenings. News of campus events is provided by the WVWP news staff who are always on the lookout for items of interest to the students of State.

Neil Benson, John Sprinkle, Ronald Poinsett, Adrian Perseghin

WVWP's collection of over 5,000 records makes planning of musical programs a pleasant task. With all of the latest "hits" available to the staff the day they are released, it is no wonder that WVWP is consistently "the first with the best."

The Agriculturist

The AGRICULTURIST is the official publication of the School of Agriculture and the "Ag" Club. It is published six times a year. This magazine, by printing articles on soils, livestock, and other items that are invaluable to agriculturists, promotes closer cooperation between students, faculty, and alumni. The AGRICULTURIST serves as an important mode of publicity both within the state and others.

Under the sponsorship of the Engineers' Council, the SOUTHERN ENGINEER provides an opportunity to develop favorable student writing technique and to provide information of value to the engineering profession.

Published four times each school year during the months of October, December, March, and May by the students in the School of Engineering, the SOUTHERN ENGINEER magazine has, through its policy of keeping the engineering profession informed of the progress made in its field both in the School of Engineering at State College and throughout North Carolina, become one of the leading technical journals in the South.

The Golden Chain

Senior Honorary

Golden Chain, Senior Honorary Society, was organized in May 1926. The purpose of the society is to promote better citizenship and leadership on the campus. In May each year, twelve Juniors, considered the outstanding members of their class, are added to the Chain by a tapping ceremony.

Blue Key Honor Fraternity was founded at the University of Florida in October, 1924, to perpetuate the belief in God, to preserve the principles of good citizenship, and to promote the best interest of the students.

The fraternity recognizes outstanding qualities in character, scholarship, and service, placing equal emphasis upon leadership in student activities. Membership is composed of graduate and undergraduate students of all departments of American colleges and universities.

Each year Blue Key co-sponsors the Homecoming celebration. Annually the fraternity presents the citizenship award to the Senior who has distinguished himself as the foremost citizen of his class. In addition, Blue Key cooperates with other campus organizations in various activities to perpetrate a more meaningful campus life.

Sophomore Leadership Society

OFFICERS

David WeinsteinPresident
 Bob LaneVice-President
 Bob Kennel Secretary-Treasurer

MEMBERS

Jim Peden	Jim Davis
Bob Lyne	Bill Graham
Dan Yager	Bob Tanen
Wiley Ritter	B. H. Barnette

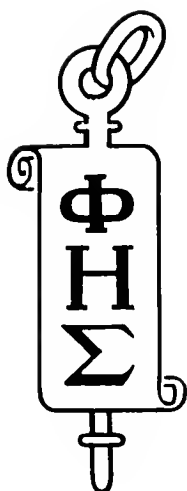

The order of Thirty and Three is a local honorary organization consisting of thirty-three members, eleven picked at the beginning of the spring semester from the Sophomore Class.

The members selected are considered to be the outstanding members of the Sophomore Class. Selection is the highest honor a Sophomore can receive at State College. Qualifications for membership include: good character, a high sense of honor, ability for leadership, satisfactory scholastic standing, welfare of school at heart, and other qualities deemed necessary to accomplish the greatest good, as determined by the active membership.

The objects of Thirty and Three are: to promote the welfare of State College, raising of school standards, and cooperating with alumni and other friends of the College to work at all times for the interests of the students and the College at large.

and

Phi Eta Sigma

E. L. CloydAdviser

PHI ETA SIGMA was founded at the University of Illinois, March 1923. The State College Chapter was installed on May 16, 1930. Membership in Phi Eta Sigma is opened to those Freshmen who make the equivalent of half A's and half B's and is considered the highest scholastic honor a Freshman can attain. Phi Eta Sigma's members are active for the latter half of their Freshman year and remain active during their Sophomore year. They strive to reward and promote an interest in high scholastic standards.

Alpha Phi Omega

The Alpha Phi Omega fraternity is a national honorary scouting fraternity dedicated to service. The Iota Lambda Chapter here at N. C. State College was chartered in 1949. The purpose of Alpha Phi Omega is "to assemble college men in the fellowship of the Scout Oath and Law, to develop friendship and to promote service to humanity."

Student Government

Jim Nolan
President

Bob Lane
Secretary

Joel Parker
Treasurer

John Lane
Vice-President

This is the body charged with administering all student self-government on the campus. These student leaders coordinate all student activities and organizations, seek to improve the general student welfare, and represent the students in dealing with the faculty and the college administration.

The accomplishments of student government, during the last few years, are quite evident. Witness the many fine, paved student parking areas which surround the main campus, the tremendous steps taken towards the solution of the student housing problem, the improved operation of the college cafeteria, and the effective liaison between the students and the faculty and administration.

The devotion to duty of these leaders, their patience, and their integrity have done much to foster the ideals of student self-government.

The Student Judicial Board, the judicial branch of our Student Government, is composed of ten students elected annually on a class basis.

The primary responsibility of the Judicial Board is to represent the Student Body to insure that the Honor System functions to attain the ideals for which it was intended. To fulfill this responsibility, the Judicial Board must conduct an orientation program throughout the school year, enact changes in the Honor System as becomes necessary, and deal with violators of the Honor System. However, the Honor System directly depends upon the individual; each student in the entire Student Body must do his part to make the Honor System effective.

Bob Lyne

The purposes of the Monogram Club are to recognize through a student organization those men who have earned a monogram, in accordance with the regulations at N. C. State College Athletic Council, in competitive athletics at N. C. State College; to foster good fellowship among monogram winners; to promote a high standard of intercollegiate athletics and the spirit in which they are conducted; to encourage ideals of good sportsmanship among athletes and spectators in the best interest of North Carolina State College.

College

Jerry Erdahl

The College Union is a building for the students and by the students. Containing the elements of a hotel, a restaurant and a community center, it is open to all students sixteen hours a day.

The heart of the College Union, however, is not located in the steel and concrete of the building, but rather in the Union organization. The building is merely an instrument through which the Union idea is accomplished, and its success reflects the combined efforts of its Officers, Board of Directors, Board of Chairmen, Committees and Board of Advisers.

The College Union Board of Directors puts the stamp of approval on the operational and social budgets and on the rules governing the use of the Union Building. It also sets College Union policy.

BOARD OF DIRECTORS

Bottom to top: A. C. Hayes, J. T. Haney, Gerald Erdahl, Dott Morton, Dean Cloyd, Bob Ellis, Fred Joseph, Baxter Williams, James V. Johnson, James Smathers, Dave Phelps, Chreston Holoman, Jim Nolan, Terry Lathrop, Richard Heaton, Chuck Abernethy, Bill Greene, Harry England, Dave Brown, Paul Pickenheim and Bob Strother.

BOARD OF CHAIRMEN

Bottom to top: Bob Strother, Harry England, Jim Smathers, Murray Penney, Dott Morton, Bob Dawson, Earl Holloman, Erbie Mangum, Chreston Holoman, Bob Ernull, Bob Abernethy, Bob Adams, Jim May, Chuck Abernethy, Dave Phelps, Bob Gray, George Colton, Archie Copeland and Paul Pickenheim.

Union

The Board of Chairmen is composed of the student president, vice-president and secretary of the Union and the Chairmen of the sixteen standing committees. This board meets weekly. It critically analyzes all the programs of each committee and coordinates events that are sponsored jointly.

The Union Committee is a proving ground for initiative, dependability, loyalty and tolerance. Since students graduating from college are frequently grade "A" technicians and grade "D" leaders, the Union's prime job is to teach the students to become effective leaders and citizens. Open to all students, the committee program is geared to teach them how to get along with other people and how to organize events and ideas.

The Board of Advisers is composed of teachers who make themselves available to the committees for advice and guidance.

The scholastic courses on campus offer mastery of words, ideas and principles—the usual concept of a college education. The Union, however, offers practical experience in living and working with people.

HOBBY COMMITTEE

Left to right: Horace Hord, Carol White, Charles Cates, Monty Sevier, David Thomas and Bob Ernull (Chairman).

Y. M. C. A.

Whatever else the Y.M.C.A. may be called upon to do, it still maintains as its central objective the influencing of students to lead a life of high principles and of service based on the teachings of Christianity. Such a task is not easy nor can it be done on a mass production scale. However, those who take part in "Y" activities and earnestly try to promote its program, and those whose lives become motivated by the idea of Christian service rather than personal gain will find that the enrichment which comes to them will be one of the most valuable rewards of their college career.

Secondary to this prime objective are the many service features provided by the "Y". A great need has unfailingly been met by providing meeting places, telephone and directory service, information and telegraph facilities, and reading and lounge rooms. With its added facilities, the Y.M.C.A. looks forward to a time when more effort can be devoted to training Christian leaders and yet a time which will see the organization as always ready and willing to serve.

The North Carolina State Veterans' Association, organized in October 1953, has been actively associated with student programs, functions and social events from the first day of its birth. Membership of the group now approximates 800 veterans and each new semester swells the rolls. Common interest in yearly planned programs including such items as Veteran Association sponsored dances, stag socials, school projects and inter-group student activities has done much to create a feeling of friendship within the Association. An active participation in every student problem of major importance has contributed much to make the name of the Veterans' Association well known on this campus.

Pinetum

Paul J. Pickenheim
Editor

Charles D. Webb
Business Manager

The Pinetum is the annual publication of the School of Forestry. From a small beginning in 1930 it has grown to a size of over 100 pages.

In the Pinetum are recorded the events and activities taking place in the School of Forestry throughout the

year. A section of the book is set aside for alumni news and letters.

The Pinetum is distributed to all forestry students, other forestry schools, advertisers, and alumni.

Mu Beta Psi

Alpha Chapter of Mu Beta Psi was organized on the N. C. State College campus in 1925. The aims of Mu Beta Psi are to foster better fellowship among the various musical organizations both on the campus and between musicians in other colleges, and to advance mus-

sic to its proper place as an educational subject. Mu Beta Psi sponsors concerts by the College Band, Glee Club, and Orchestra and coordinates the musical activities on the State College campus.

Christian D. Kutschinski
Director

Music Department

The Music Department under the direction of Christian D. Kutschinski and Robert A. Barnes embraces the activities of the State College Bands, the Glee Club, and the Little Symphony Orchestra.

The Marching Band is noted for its spectacular half-time shows at football games. It also functions as the Military Band for all the ROTC parades and reviews, and participates in a number of street parades of a civic nature. At close of football season the band's instrumentation is modified to conform to that of a well-balanced concert or symphonic band for the study and performance of the best in band music. Besides several concerts during the year, the Concert Band is featured in connection with the commencement activities.

The Glee Club is a popular organization which, besides its regular formal concerts on the campus, is in demand for programs at civic clubs, TV performances, etc., and occasionally collaborates with one or more of the local woman's colleges for joint programs.

The Orchestra, composed of State students, faculty members and outstanding musicians from Raleigh community, presents three symphony concerts each year, and provides a smaller ensemble for special college functions, such as midyear graduation exercises and the like.

Military

Army

Everyone has the obligation for service to his country in time of need. The Army ROTC has for its purpose the training of students for positions of leadership in the Army so that these young men can fulfill this obligation as officers instead of in a lesser role. In this way, the student renders more valuable service to his country by utilizing his college trained technical ability in positions of responsibility. At the same time, he benefits himself to a greater extent. The successful completion of a four year Army ROTC course leads to a commission as a second lieutenant in the Army Reserve. In the classroom, emphasis is placed on giving the prospective officer a general background knowledge of military subjects and activities essential to all of the Army's fifteen arms and services. Maximum effort is made to arouse the student's interest through the use of weapons, illustrations, training films, practical exercises and models. Drill and exercise of command facilitate development of those essential characteristics of leadership such as self-confidence, initiative, loyalty, and the ability to think clearly, make wise decisions, and inspire others to work for the success of any endeavor. This leadership training will also aid the individual in his chosen civilian career and in becoming a leader for the betterment of his home community.

Pershing Rifles

The Pershing Rifles is a national military society, named for General John J. Pershing. Its aim is the promotion of high quality military training and leadership in ROTC units of the colleges and universities of the United States through participation in a national organization which stands for the highest military and leadership qualities.

The North Carolina State College Chapter is Company L of the 4th Regiment.

The Pershing Rifles membership is composed of cadets who have proven themselves superior in leadership, academics and military bearing as members of the Cadets Corps. The activities of the organization are: drill and parade exhibitions, social participation as a unit, demonstrations for the Regimental and National Drill meets and exhibition drill throughout North Carolina and neighboring states.

CLEAN UP TIME

Every morning at 5:45 the cadets cleaned the barracks for inspection. At Benning they liked them "Standing Tall."

BONE SUPPORT, BONE SUPPORT

After long hours on the PMI range the cadets hear these words in their sleep.

Army Summer Camp

Y'ALL FROM WHEARE?

Two cadets enjoy themselves with some of the local talent at the annual ROTC Ball.

JUST A LITTLE MORE

Cadets use teamwork in preparing for full field inspection.

Colonel James F. Risher
Professor of Air Science and Tactics

Air Force

The dual mission of the Air Force ROTC is best explained by reference to the two parts of our training program, Basic and Advanced.

Our Basic course, like the Basic Army course, provides fundamental military training for freshmen and sophomores, which is required of all physically qualified students except veterans at this institution. This training provides not only an elementary knowledge of military organization and customs, and the Air Force and Air Power, as a platform for continuance in the Advanced course but knowledge of the Air Age and National Defense which is essential for civilian and airmen alike.

The Advanced course, for selected and volunteer Juniors and Seniors, provides more intensified academic training in subjects pertaining to Air Force organization, mission, and operations. The academic and leadership training programs of this course are designed to qualify graduates for commission as 2nd Lieutenants in the Air Force Reserve and for immediate tours of active duty with the Air Force. Throughout our program of training a primary objective is to develop those qualities of character and temperament that are essential to leadership and success in both military and civilian careers.

Arnold Air Society

Old Members

The Arnold Air Society was established in the summer of 1947 as an honorary A.F.R.O.T.C. organization for third and fourth year students. By unanimous decision of the founders, the Society was named in honor of the late General W. H. "Hap" Arnold.

The preamble to the Arnold Air Society's National Constitution best illustrates the reasons underlying the founding of the organization.

"We, the members of Arnold Air Society, in order to further the purpose, mission, tradition, and concept of the United States Air Force as a means of National Defense, promote American Citizenship, create a close and more efficient relationship among the Air Force Reserve Officers Training Corps Cadets do hereby establish this Constitution."

Interfraternity Council

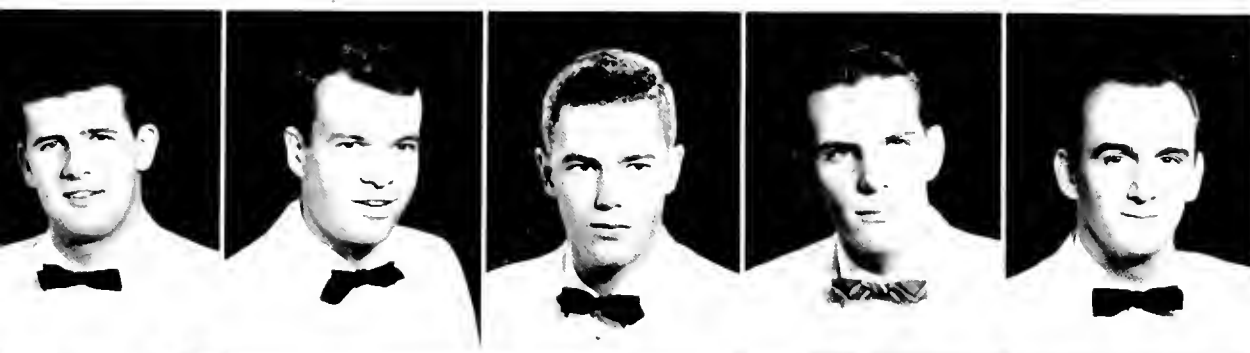

The Interfraternity Council was organized in the spring of 1931 through the efforts of the College Administration and the fraternity leaders. The purpose of the Council is "to advance the interests of North Carolina State College, to promote the general interests and welfare of the associated fraternities as a body, and to insure co-operation between them in their relations with the faculty, student body, and the public in general." The Council is composed of two representatives from each chapter, elected by the chapter.

As the social feature of the college year, the Council sponsors two dances—the Pledge Dance in the fall semester and Spring Greeks.

Alpha Gamma Rho was founded in 1904 at Ohio State. Its purpose is to develop the best social, mental, moral, and physical qualities in each brother and to promote a wider acquaintance and a broader outlook on the part of agricultural men through fellowship in a national organization. There are now 33 active chapters with over 18,000 members.

Nu Chapter was initiated on March 15, 1919. One of the high aims of Nu Chapter is outstanding scholarship and activities which all members are expected to develop. The social activities include: pledge parties, Christmas Formal, Founders' Day Banquet, Pink Rose Ball, and beach party.

FarmHouse is a national, non-Greek letter, social fraternity. The first chapter was established in 1905 at the University of Missouri. Seven men conceived the idea of FarmHouse at Missouri, having in mind the development of a social fraternity which would maintain high morals, develop outstanding leadership qualities, strive for high scholastic achievements and provide a home for worthy agricultural students while in college. With these definite objectives to reach, the motto, "Builder of Men," was adopted for the fraternity.

The national scope of FarmHouse now includes 15 active chapters. All of these groups have continued to carry out the high ideals set forth by the mother chapter. Each year almost every FarmHouse ranks first in scholarship among the other fraternities on their respective campuses.

The North Carolina FarmHouse Club was formally installed on May 15, 1954, and received its charter as the thirteenth chapter of FarmHouse Fraternity. Since its beginning on the State College Campus in 1952, the organization has gained prestige through demonstrated ability in scholarship, leadership, intramurals and joint fraternity functions.

Kappa Alpha was founded at Washington and Lee University in 1865 to perpetuate the Southern ideal of gentlemanly character typified by Robert E. Lee, its spiritual founder. The fraternity is patterned on an order of knighthood, and the members are expected to conform to the discipline of the order and cultivate the graces of Southern gentlemen. Kappa Alpha restricts its field to colleges and universities south of the Mason-Dixon Line. At present there are 76 chapters within the order. Alpha Omega Chapter was chartered at North Carolina State College in 1903, and is the second oldest fraternity on the campus. The year's biggest social function is the annual Old South Ball.

Kappa Sigma originated at the University of Bologna in 1400 and soon spread to many of the larger universities of Europe. On December 10, 1869, the "Five Friends and Brothers" formed the first American chapter of Kappa Sigma at the University of Virginia. Kappa Sigma has grown until it now has at least one chapter in every state. There are 100,000 living alumni and 129 active chapters.

Beta-Upsilon Chapter was founded on the campus of State College on February 23, 1903. Since that time it has initiated over 400 men.

Founded at Boston University in 1909, the Lambda Chi Alpha Fraternity has grown to be the largest national fraternity, with over 150 chapters located at prominent colleges in the United States and Canada. The "Cross and Crescent," the fraternity magazine, is published seven times annually. Other Lambda Chi Alpha chapters in the state are located at Duke, Carolina, Wake Forest, and High Point.

Gamma Upsilon Chapter was founded on the State College campus in 1924 and has initiated over 400 men since that time. The local chapter sponsors the annual interfraternity bridge tournament, a Christmas party and an Easter Egg Hunt for underprivileged children. A highlight of the social year is the Crescent Ball held in the Spring in conjunction with the other Lambda Chi chapters in North Carolina.

In June of 1949, a local fraternity, Phi Epsilon Tau, was chartered into the national fraternity, Phi Epsilon Pi. Phi Epsilon Tau had been founded in 1947 under the principles of fraternity, liberalism and nonsectarianism. These ideals furnished the spark to weld together a strong brotherhood under the new charter.

Today the fraternity is rightfully proud of its high scholastic ranking and its reputation on campus as a leader in extra curricular activities.

On March 17, 1906, four students at Miami University in Oxford, Ohio, decided to take action to break up a political monopoly on the campus. The result: Phi Kappa Tau. A relatively young fraternity, Phi Tau has in its fifty-one years grown into a national organization of sixty-five chapters.

Phi Kappa Tau has since its founding stressed the ideals of man's search for knowledge, fellowship, and truth. It has maintained consistently high standards of scholarship, honor, and integrity.

Locally Chi Chapter is in its thirty-fourth year. To its forty-five brothers and pledges, the white brick house on Horne Street is a center of fraternal life and pleasant living.

Pi Kappa Alpha, since 1904, has been a leading fraternity on N. C. State's campus. Again this year, Pika served its purpose—that of building men of high character. This group of men found that by living and working together, they could improve themselves and others around them.

Of course, these men also developed their social life. There were numerous parties throughout the year, with Pika Ball highlighting them.

Pi Kappa Phi was founded on December 10, 1904, at the College of Charleston, Charleston, S. C. The founders, seven men who pledged themselves to a lasting bond of friendship, had no idea of the vast organization that would flower from the seed they had planted. With the definite purpose of extending the influence of the organization, the incorporation as a national fraternity took place in 1907. The purpose of the fraternity is to promote fellowship and mutual trust among its members; and to give to its members the highest ideals of Christian manhood and good fellowship.

Tau Chapter was established at State College in 1920. To its members, Pi Kappa Phi is more than just three Greek letters; it is their college home and the cornerstone of life-long friendships.

"There remaineth a lingering presence, the ghost of good fellowship rare." This line, from one of our often sung SAE songs, embodies the spirit of Alpha Chapter.

Founded at the University of Alabama in 1856, Sigma Alpha Epsilon was the first of the great line of Southern fraternities. Since that time it has gradually grown and expanded until today, with national offices housed in the beautiful Levere Memorial Temple at Evanston, Illinois, collegiate chapters represent SAE in 46 of the 48 states. Now the second largest national fraternity, Sigma Alpha Epsilon has always been a leader in the Greek World.

Alpha Chapter was established on the State College campus October 24, 1947, and during this brief eight year span since its conception, has risen to take its rightful place on campus. Guided by high ideals and noble ambitions, it hopes to help prove the worthiness and value of fraternal living.

Sigma Alpha Mu was founded on Thanksgiving Eve, November 26, 1909, at the College of the City of New York. The eight founders pledged themselves to lasting friendship.

The object of the fraternity, as expressed in its constitution, is "to foster and maintain among its sons a spirit of mutual, moral aid and support; to instill and maintain in the hearts of its sons love for and loyalty to Alma Mater and its ideals; to inculcate among its sons such ideals as will result in actions worthy of the highest precepts of true manhood, democracy and humanity."

Sigma Omega Chapter is the outgrowth of a local fraternity, Theta Phi, which had its beginning in 1929. From its inauguration, the fraternity has always maintained high standards of scholarship and conduct. Sigma Omega Chapter is the owner of its own house at 304 East Park Drive.

Sigma Chi Fraternity was established at Miami University, Oxford, Ohio, on June 28, 1855. Since that time it has grown to a strength of 128 active chapters throughout the United States and Canada with over 68,000 living initiates.

After two years existence as a local fraternity, known as Chi Sigma, Delta Epsilon Chapter was established at North Carolina State College on May 15, 1943.

With its own chapter house at 2514 Clark Ave. Sigma Chi takes an active part in all campus activities. Among the accomplishments of the fraternity are winning the fraternity intramural championship trophy seven straight years and having a sing group that takes part in many of the musical activities on campus.

Sigma Nu had its beginning in the State of Virginia. Founded at the Virginia Military Institute by three Confederate veterans in 1869, Sigma Nu was early known as the Legion of Honor, from which some of its outward manifestations, such as the badge, were taken. Honor was the cardinal motif, virtue the essential teaching, and friendship the token of Sigma Nu.

Beta Tau Chapter was founded at State College in April 1895, thus making it the oldest fraternity on the campus.

Beta Tau Chapter has initiated close to 600 college men during its sixty years of existence.

"... To believe in the Life of Love, to walk in the Way of Honor, to serve in the Light of Truth, this is the life, the way, and the light of Sigma Nu—this is the Creed of our Fraternity."

Sigma Phi Epsilon was founded on November 1, 1901, on the campus of Richmond College in Richmond, Virginia. In the 56 years since its founding Sigma Phi Epsilon has grown from a small group of twelve to a membership of over 49,000 brothers all over the world. Today there are Sig Ep chapters at almost every important college and university in the United States.

The chapter is active in all campus activities. Scholastically the Sig Eps are one of the highest on campus. One of the gala weekends is the Carolina Sig Ep Ball which is held in conjunction with the seven other chapters of the Carolinas.

Beta Chapter at State College was given its charter in 1905, making it the fifteenth national chapter. The present house, purchased in 1948 by the alumni, is located at 2512 Clark Avenue.

Sigma Pi was founded on February 26, 1897, at Vincennes University, Vincennes, Indiana. The purpose of its four founders was to establish brotherhood and "to organize the most worthy activities social, athletic and scholarly, and set a high standard of manliness and college loyalty."

On May 28, 1921, the Sigma Chi Gamma Club at State became Rho Chapter of Sigma Pi, making it one of the older fraternities on campus.

The highlight of the year at Sigma Pi is the annual Founders' Day Banquet and Ball. All active members and many alumni are present for this gala weekend.

Sigma Pi has approximately 60 active chapters with the Executive Office in Elizabeth, New Jersey. The Emerald, the fraternity magazine, is published quarterly.

Starting last year, Rho Chapter annually presents a trophy to the fraternity on campus whose pledge class has the highest scholastic average.

Tau Kappa Epsilon was founded on January 10, 1899, at Illinois Wesleyan University, Bloomington, Illinois. The founders established a fraternity of men chosen "not for their wealth, rank, nor honor, but for their personal worth and character." The basis principles are charity, esteem, and love. A merger of a local fraternity Alpha Lambda Tau and the nationally established Tau Kappa Epsilon brought TKE to the South in the form of the Beta Beta Chapter at State College in 1947.

The chapter has always prided itself on the interest its members have shown in sports, student government, publications, and particularly scholarship.

Highlights of the Teke social calendar include the Founders' Day Banquet, the Carnation Ball, and the French Quarter Party.

TKE emphasized the importance of careful balancing of social activities, scholastic work, and participation in the extra-curricular program of the college.

Theta Chi Fraternity was founded April 10, 1856, at Norwich University, Norwich, Vermont. From this beginning 100 years ago the fraternity has continually expanded until it now has 120 chapters on leading college and university campuses.

Delta Rho Chapter was installed at State College on May 17, 1952. Our chapter's intentions are to make the fraternity a campus substitute for each member's home; to make the chapter house a home where members may live, study, work, and play with reasonable comfort and happiness; to assist in socializing the new pledges into the finished product of the graduating Senior; to teach them principles of self government; to aid them in attainment of high scholarship; to encourage them to gain the self-confidence and the building of personality that comes from participation in campus activities—in short, in every way to aid them to become better fitted for distinguished service to their community and the world at large.

STILL WIDE OPEN THE GATES OF OPPORTUNITY

Our American inventors and scientists, backed by our remarkable industrial know-how and skills, may seem to have produced today about everything it's possible to produce. Those with little faith in our country and its future would have us believe so.

But to American youth the gates of opportunity are wider open than ever before. Thousands of new and better ways of doing things, of new products and new developments, will be created by those who properly prepare themselves.

D & F "COORDINATED PRODUCTION"

The skillful integration of Davis & Furber Machinery, Supplies and Accessories with our expert Technical Service and Counsel and your mill production requirements and specifications—results in a "COORDINATED PRODUCTION" program.

Davis & Furber "Coordinated Production"—jointly planned with the mill—means increased profits for you. Ask how the D & F "in-your-mill" Technical Survey can solve your specific problems. Write for your copy of the D & F News, to help you with your long-range planning.

"Pfister for fine Naphthols"

ENGINEERS...

*after graduation
here is the open door
to a lifetime professional career*

Your creativeness and initiative will find their full reward here. If you seek the utmost in professional success and satisfaction, consider these advantages of a career with Stromberg-Carlson:

- Opportunity for rapid advancement in a fast-growing company.
- Excellent salary, superior fringe benefits, and subsidies for graduate study.
- Young, dynamic management with liberal professional attitudes.
- Ideal living conditions in a community of fine homes, superb schools, and unsurpassed facilities for leisure-time activities.

CHALLENGING POSITIONS ARE OPEN IN THESE FIELDS:

Control Systems	Telecommunications
Electronics	Audio-Acoustics
Automation	Mechanical Design

The door is open to you. Write to—Arthur N. Paul, Director of Technical Personnel.
